Our third-party testing by BP Food Environmental Testing verifies that UMBO® Niflex® Nitrile gloves carrying the Pathogen Free Certified badge are free from accidental pathogen contamination during the manufacturing and production process* of our Niflex® Nitrile single use gloves.

The Pathogen Free verified badge certifies that all our UMBO® Niflex® Nitrile Gloves have been tested and passed our strict safety standards providing you the highest level of protection and safety.

* The hidden risks of glove contamination result from the largely unregulated production and manufacturing of single-use gloves, with limited and infrequent glove compliance testing on import to the U.S.
